

Volunteer Program

The Wilmington Weather Station is very unique because we are a Community Weather Station.

What is a Community Weather Station?

- A Community Weather Station is one that was created by a community or a community non-profit organization.
- A Community Weather Station is one that is managed and operated by community residents and volunteers.
- A Community Weather Station owns its weather and air quality monitoring station equipment.
- A Community Weather Station provides real local weather and air quality information.
- A Community Weather Station also has a website that provides other important weather, air quality, climate change and emergency preparedness information.
- A Community Weather Station supports local Student Career Internship Programs.

The Wilmington Weather Station was established in 2019 by the Coalition For A Safe Environment a non-profit Environmental Justice Organization as a community service. The Coalition For A Safe Environment (CFASE) was established in Wilmington in April 2001 by Wilmington residents. In 2017 CFASE submitted a Supplemental Environmental Project (SEP) grant application to the California Air Resources Board. In 2019 CFASE received a SEP grant from the California Air Resources Board to create the Wilmington Weather Station.

We Love Volunteers

The Wilmington Weather Station welcomes Volunteers with any kind of experience. There is always something that you can do to help us. We need:

- **Office Helpers:** Answer phones, make copies, file documents and make coffee.
- **Managers/Supervisors:** Help supervise our projects, interns and field trips.
- **Engineers/Technicians:** Help maintain and operate our weather station.
- **TV/Radio Producers:** Help manage and produce our news programs.
- **Videographers/Audio Experts/Editors:** Help record and produce our news programs.
- **Internship Teachers:** Help train our Student Interns and develop training materials.
- **Fundraising:** Help us raise funds to support our community weather station.
- **New Career Seekers:** Help and learn a new career. See our Student Internship Program.
